REACTIVOS PARA EL ÁREA DE PROCESOS

XIS C 3330 XAP C 3505

El Xantato Amylico de Potasio (XAP C 3505) y el Xantato Isopropilico de Sodio (XIS C 3330) son colectores de metales sulfuros eficientes en circuitos de flotación de metales.

FLOC AN 923 SH

Floculante polímero de acrilamida tanto aniónico como catiónico empleado para procesos de separación sólido líquido con aplicaciones en tratamiento de agua y espesado de lodos.

Información Aditivos para Concreto BASF

- **Thorolastic**
Recubrimiento acrílico elastomérico para concreto
- **Thoroseal550I**
Recubrimiento cementicio flexible para impermeabilización y protección
- **ThoroStucco**
Mortero cementicio para acabados arquitectónicos
- **UcreteHF**
Sistema de pisos poliuretano-cemento antiderrapante
- **UcreteHPyHP_Q**
Sistema de piso poliuretano-cemento decorativo
- **UcreteMF**
Sistema de pisos poliuretano-cemento autonivelante
- **UcreteWR**
Sistema de piso poliuretano-cemento para superficies verticales
- **Ultra**
Sellador de poliuretano alifático elastomérico
- **WaboContourII**
Sistema de expansión para juntas interiores en muros y plafones
- **WaboCretell**
Concreto elastomérico
- **WaboCreteMembrane**
Sistema de juntas de expansión de las series MM/ME
- **WaboElastoflex**
Serie estacionamiento y OAS sistema de juntas de expansión para cargas de impacto
- **WaboElastoflexBridge**
Serie puentes. Sistema de sellado de membrana continua
- **WaboExpandex**
Junta de expansión asfáltica
- **WaboFastWrap**
Juntas para pisos, muros y plafones
- **WaboFinishSeam**
Junta para pisos, muros y plafones
- **WaboFlash**
Junta de expansión flexible para azoteas
- **WaboFlatline**
Junta de expansión flexible para muros y pisos
- **WaboFlex**
Junta de expansión segmentada moldeada en hule
- **WaboInverseal**
Sellos de juntas de expansión para movimientos pequeños
- **WaboModular**
Serie STM, Seie D. Juntas de expansión para grandes movimientos
- **WaboSeismicFloor**
Juntas de expansión para pisos
- **WaboSeismicPan**
Juntas de expansión para pisos
- **WaboSiliconeSeal**
Sellador de juntas de expansión de silicón
- **WaboWeatherSeam**
Juntas de expansión para muros y plafones
- **WaboXCELModular**
Junta de expansión multireccional de gran movimiento
- **Waterplug**
Mortero de fraguado rápido para el sellado de fugas de agua activas en concreto y mortero de mampostería

- **MasterFlow648CPPlus**
Grout epóxico de gran fluidez, alta resistencia y excelente funcionamiento a altas temperaturas
- **MasterFlow928**
Grout de alta precisión, con agregado natural, sin contracción y amplio tiempo de aplicación
- **Masterkure**
Compuesto para curado y sellado de concreto y mortero
- **Masterkure200W**
Compuesto de curado para concreto libre de C.O.V, bajo contenido de sólidos
- **Masterplate200**
Endurecedor metálico de superficie en polvo colorido para pisos industriales
- **MasterplateFF**
Endurecedor de superficie con agregado metálico para mejorar la planicidad de pisos planos y superplanos
- **MasterSeal600**
Impermeabilizante acrílico
- **MasterTopCST**
Tratamiento superficial para pisos
- **MasterTopSMT**
Endurecedor de superficie con agregado metálico para mejorar la planicidad de pisos planos y superplanos
- **NP1**
Sellador monocomponente, elastomérico de poliuretano, aplicable con pistola de calafateo
- **Primer733**
Imprimantes para selladores de poliuretano
- **ProcesoApe**
Proceso de encapsulación Avansada de pilotes A-P-E
- **Rheofinish**
Agente desmoldante que no mancha
- **Set45HW**
Mortero de reparación y anclaje que permite el tráfico vehicular a los 45 minutos de su aplicación
- **SistemaMBrace**
Sistema de refuerzo estructural con fibras de carbono
- **SL1**
Sellador de poliuretano autonivelante para ambientes químicos e industriales
- **SL2**
Sellador de poliuretano autonivelante para juntas en superficies horizontales
- **SonoflexF**
Relleno de juntas de expansión, respaldo para selladores Sonolastic
- **SonofoamBackerRoad**
Relleno de juntas y material de respaldo para selladores
- **SonoGlazeVOC**
Recubrimiento de poliuretano de alto brillo para uso interior y exterior
- **Sonoguard**
Impermeabilizante de poliuretano para áreas de tráfico vehicular y peatonal
- **Sonolater**
Adhesivo para concreto y mortero
- **Sonomeric1**
Sellador de poliuretano autonivelante elastomérico para juntas en superficies horizontales
- **Sonosil**
Auxiliar de curado, endurecedor y protección contra polvo para concreto
- **SonothaneVOC**
Recubrimiento de poliuretano de alto brillo para áreas interiores de tráfico
- **Superthoroseal**
Impermeabilizante base cemento para concreto
- **ThorocIC-2000PSWPrimer**
Imprimante de poliurea de dos componentes
- **ThorocIC-2415CPR**
Producto de reparación de poliurea
- **ThorocIC-2480**
Recubrimiento elastomérico de poliurea proyectable, con resistencia a la abrasión superior y de rápido fraguado
- **ThorocIC-5400**
Recubrimiento impermeabilizante de poliurea con excelente estabilidad al color y resistencia a los UV

Información Aditivos para Concreto BASF

- **Acryl60**
Adhesivo acrílico para mortero base cemento
- **Anvil-Top300**
Topping con agregado metálico muy resistente a la abrasión y al impacto
- **ChromixL**
Aditivos colorantes para concreto
- **ConcresiveLiquidLPL**
Adhesivo epóxico líquido para concreto con amplio tiempo de aplicación
- **ConstructionGrout**
Grout para la construcción con agregado mineral y sin contracción
- **CureEB**
Emulsión blanca para curado de concreto y mortero
- **EmacoP24**
Agente adherente cementicio/epóxico acuoso y recubrimiento para acero de refuerzo
- **EmacoS88CA**
Mortero para reparación estructural, proyectable con retracción compensada
- **EmacoT430**
Mortero de repacación con alta resistencia inicial y amplio tiempo de colocación
- **Embeco885Grout**
Grout de alta precisión con agregado metálico, sin contracción y largo tiempo de aplicación
- **Enviroseal7**
Recubrimiento impermeabilizante de silano/siloxano
- **EnvirosealPBT**
Recubrimiento impermeabilizante de silano/siloxano de alto desempeño
- **EpoFill_EpoFillSLV**
Resina epóxica de baja viscosidad para inyección
- **Epogel**
Adhesivo epóxico en pasta, sin escurrimiento, alta resistencia, alto módulo
- **EpoGrip**
Adhesivo epóxico estructural para unir concreto nuevo con viejo
- **EpolithP**
Relleno de juntas epóxico, semi-rígido de dos componentes
- **HLM5000**
Sistema de membrana impermeable elastomérica líquida de aplicación en frío
- **Hydrocide700B**
Barrera de vapor de emulsión asfáltica basa agua
- **KureNSeal30**
Compuesto transparente para el curado, sellado y protección del concreto contra el polvo
- **Lapidolith**
Endurecedor y protector químico para pisos de concreto
- **Lumiplate**
Endurecedor metálico, no oxidante para pisos
- **MasterCron**
Endurecedor superficial coloreado en polvo con agregado mineral
- **MasterCronFF**
Endurecedor de superficies con agregado mineral para mejorar la planidad de pisos planos y superplanos
- **MasterfiberSTR**
Fibras de copolímero vírgen para refuerzo de concreto
- **MasterFill400CT**
Selladores para juntas de expansión, 100% de poliurea de rápido endurecimiento
- **MasterFlex610**
Junta preformada hidroactiva para sellado, expandible en contacto con agua
