

FLOMIN™ C 3505 Collector

SNF FLOMIN INC.

SNF FLOMIN is committed as a global supplier to the mining reagents market.

- Investments in world class, state of the art production capable of providing products of the highest quality and value.
- Offer our customers a full range of collectors, promoters, frothers and flocculants
- Provide comprehensive metallurgical development services.
- Locally trained technical and sales specialists.
- Plant engineering, local inventory and vendor management service programs.

APPLICATION

A sulphide mineral collector that is effective for most base and precious metal flotation circuits.

Potassium amyl xanthate

BENEFITS

Improved recovery of valuable metals such as Pb, Cu, Zn, PGM's and Ni.

Typical pH usage range is neutral to alkaline.

PROPERTIES

Appearance ~	Green to yellow pellets
Flash Point ~	Not available
Bulk Density ~	0,7 to 0,8
Solubility (in water) ~	Complete
Odour ~	Organic sulphide

PACKAGING

Bags ~ mini and bulk
Drums

Refer to the product MSDS for more specific information

Please contact an SNF FloMin representative for more information and product testing.
